

Commercial, Residential & Multi-housing

One-Time Services

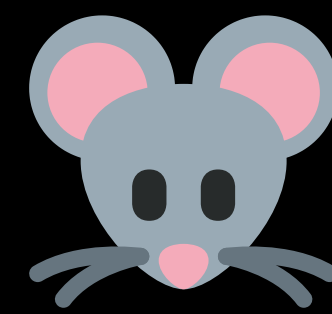

Roaches

From bringing one home from the grocery store to large infestations we exterminate these pests. Our roach service is hassle free: we don't require any prep work for the first visit. If something stronger is needed, we will let you know.

Bed Bugs

Our bed bug service is a low-maintenance option for you: we don't require any prep work! We use a chemical treatment to rid your home or building of these pests.

Carpenter Ants

Whether you find these pests inside or outside of your home, we have an exterior application that does the trick. If you're not sure if it is carpenter ants or another variety, we will inspect. If needed, we can bait on the inside.

Mice

Though mice are a common winter pest, they can sneak inside year-round. Our mouse service eliminates the places they can get in and takes care of any that are already inside.

Clean Outs

If you own a multi-housing unit and have had complaints of mice, roaches or bed bugs, you may be interested in our clean out special. Included in this special is a lower inspection rate, inspecting all units and treating all as needed. The first unit is priced per normal, but each additional is half the cost as the first. This is option can save you money in the long run!

Custom Weekly, Monthly, Quarterly Plans

Often after a one-time service, many property owners realize their need for regular maintenance. At this time we work with you to develop a custom plan that fits your needs, whether it be weekly due to high restaurant traffic, or our most commonly purchased services monthly or quarterly plans for your business.
